

Welcome to Ostrava

Dear Colleagues,

functional endonasal surgery is one important part of our specialty. Besides classical functional endonasal surgery, surgery of nose and paranasal sinuses experienced an enormous progress by the rapid development of new technical devices up to skull-base surgery.

Basic knowledge as well as diagnostic and therapeutic details are presented by experts.

Certainly, Ostrava offers much more than a surgical course. Take the advantage to explore Ostrava's historical industrial sites by visiting interesting locations and enjoy being among colleagues.

We are looking forward to welcome you in Ostrava and to experience a scientifically and personally enriching meeting.

Prof. P. Komínek, MD, PhD, MBA

Chairman

Prof. Pavel Komínek, MD, PhD, MBA

Director of the Univ. ORL Dept. Ostrava, CZE

Organisation

Petr Matoušek, MD, Ph.D.
